## Our vision

We are proud of our employees, our growers, and our company! Over a century ago, a small group of farmers joined forces to extract the maximum value from sugar beets. Now, in 2020, we are the most efficient sugar producer in Europe.

Sugar beets will continue to be a source of innovative solutions for us in future. Our new strategy is a response to the changing needs of consumers and new market opportunities. It is a strategy that focuses on sustainability, innovation, and circularity, in line with the Cosun vision of Plants Powering People.
